## fact sheet

## **Contract Operator Companies**

The Certified Operator Directory is a listing of all individual operators that are available for contract in Massachusetts. It is available on the web at <a href="http://www.mass.gov/dep/water/compliance/certop.htm">http://www.mass.gov/dep/water/compliance/certop.htm</a>. Once into the directory file, look for your town or surrounding towns to find individual operators that are willing to work in that area.

Below is a short alphabetical list of Contract Operator Companies that are also available for contracting. Contact the companies to be sure they are a company that can suit your public water system's needs.

Please Note: MassDEP does not endorse any operator or company.

All primary operators of a public water system must hold a full status license and hold the grade that at least matches the system's class. For example, if your system is a VSS then the primary operator must hold a full status VSS grade license or higher. If your system is a T2 then your primary operator must hold at least a full status T2 grade license or higher.
